

Sensotek GmbH – Company profile

Within the Pepperl+Fuchs Group, Sensotek GmbH is a specialist in the field of entrance automation and covers both sales and service for intelligent sensory detection and monitoring systems. By maintaining close contact with the customer, Sensotek holds a true understanding of their needs and wishes and can use that knowledge as a basis for developing innovative sensor solutions for a wide range of applications in the entrance automation.

A clear focus on this specific market segment also allows Sensotek to react flexibly to changing requirements. In addition to Sensotek's own products, their broad product offerings also include adaptations of existing sensors from the Pepperl+Fuchs Group.

Address:	Stuttgarter Straße 119, 73061 Ebersbach, Germany
Telephone:	+49 7163 93926-0
Fax:	+49 7163 93926-10
Internet:	www.sensotek.com
E-Mail:	info@sensotek.com
CEO:	Rainer Niess
Year of foundation:	2010
Employees:	31
Target markets:	Automatic doors and access systems, gate automation, elevators, escalators, barriers, security, fire protection, perimeter protection, buses and trains, traffic management systems
Key products and services:	Intelligent measuring radar sensors as opening pulse generators. Systems for direction recognition of people at security gates in airports, separation systems for security areas and digital people counting. Industrial LED strips for signal lighting. One-way light grids for elevators. Conventional Doppler radar sensors. Distance measuring systems for elevators, encoders, safe absolute value positioning in elevators. Fire protection light barriers. Inductive proximity switches, sensors for sliding doors, LIDAR sensors, optical sensors, passive infrared sensors, presence safety light curtains. RFID systems. Closing edge protection as well as induction loops. Static TOF sensors for swing doors. Ultrasonic sensors.
